

Technical Leader – LC Biologics

SCOPE

To face our constant growth, we are currently actively looking for a **Technical Leader – LC Biologics**

You will work on **innovative biopharmaceutical products** under development (preclinical and clinical phases).

You will be part of a team involved in projects outsourced by our clients

Those projects are related to the development, validation and/or application of analytical methods based on a protocol for the characterisation and quality control of (bio)molecules.

YOUR MISSION

You will report to the Analytical Team Manager Biologics and Chromatography

You will manage a team of 5 to 6 people (Scientists, Analysts and Technicians)

In this role, you will be accountable for

- Managing all HR aspects such as
 - Participation to selection interviews
 - Staff evaluation
 - Ensuring monthly coaching meeting with staff members
- Co-ordinating projects and resources according to defined priorities
 - Planning of staff members activities
 - Technical troubleshooting
 - Writing and/or verifying reports on projects for clients,
 - Managing documentation follow-up
 - Validating analysis reports
- Being the point of contact for clients regarding any technical aspect.

PROFILE

Required

- Master or PhD in Biology / Biochemistry
- At least 3 years practical experience in development, validation and/or application of analytical methods
- At least 1 year of practical experience in the pharmaceutical industry in a **GMP** environment
- Very good communication skills both in French and English (writing scientific documents, reports, protocols and mails, phone conferences, contacts with clients)

- Very good theoretical knowledge and practical experience of **liquid chromatography ((U)HPLC) applied to biomolecules (SEC, IEX, etc)**

Pluses

- First experience in team management
- Knowledge of **capillary electrophoresis on macromolecules (ICIEF)**.
