

Offre d'emploi

Quality Assurance Associate Junior

SCOPE

To face our constant growth, we are currently actively looking for a **Quality Assurance Associate Junior**

You will work on **innovative biopharmaceutical products** under development (preclinical and clinical phases).

Those projects are related to the development, validation and/or application of analytical methods based on a protocol for the characterisation and quality control of (bio)molecules.

You will be part of a team of 9 people and report to the Compliance Director.

YOUR MISSION

As a **Quality Assurance Associate Junior**, you will have (or participate in) the following tasks and responsibilities:

- Managing Standard Operating Procedures
- Training personnel in procedures and the Quality System
- Maintaining and developing the Quality System
- Updating the Site Master File
- Monitoring Key Quality Indicators and Key Performance Indicators
- Promoting risk management and continuous improvement strategies
- Drawing up the Quality Management Review (QMR)
- Managing CAPAs
- Carrying out and following up client and regulatory agency audits
- Carrying out internal audits of facilities, processes and projects
- Assessing quality contracts provided by clients
- Monitoring quality in client projects
- Advising clients on subjects related to quality
- Qualifying providers

PROFILE

- Master's degree in **Sciences (Chemistry, Cellular / Molecular Biology,...)**
- First experience in a similar position
- Theoretical knowledge of physicochemical and molecular and cell biology analytical techniques
- Good knowledge of the pharmaceutical sector, Quality Assurance principles, GMP and ICH guidelines
- Fluent in French with a good knowledge of English, both written and spoken.
