

Company	Advanced Medical Diagnostics SA/NV Advanced Medical Diagnostics is a start-up company that develops and markets an innovative medical device in the area of cancer diagnosis. For more information on us: www.HistoScanning.com
Job offer	We are recruiting an M/F Junior System Manager to assist our IT team in their daily tasks and to support internal and/or customer users.
Description	<p>As an innovative R&D company our IT infrastructure is complex and has to be up and running constantly to support the company development and operations. It is mainly based on Windows computers (several versions) which are preventively and proactively maintained all year long.</p> <p>Our IT team is also part of the customer operations, and as such is involved in installing and servicing our medical equipment- which is PC based. As member of this team, you will be involved in activities like performing installations, troubleshooting and maintenance on our IT infrastructure or on our medical products.</p> <p>The position requires a high level of engagement and you will be expected to show a commitment to give efficient service both to the internal users and to our customers.</p>
Your profile	<p>Personality: We look for a person who has an open mind, is passionate in IT and wishes to manage it as it should be. He/she will be able to perform correctly under stress and within a constantly changing environment.</p> <p>The candidate will have a strong common sense (i.e. finding quick, adapted and practical solutions to daily or exceptional situations) and, maybe the most important, will show a high level of integrity and reliability</p> <p>Education: The minimal level of education is Bachelor in IT (formerly A1) or equivalent proven field background.</p> <p>Experience:</p> <ul style="list-style-type: none"> - 1 to 3 years in Windows systems management (servers and workstation) is a must. - Good knowledge of Microsoft standard software (Office suite, Visio, SQL server EE edition, ...) is required. - Experience in managing Unix systems in professional environments is an asset. <p>Other skills: Because our internal and external communications are primarily in English, good command of English is required</p> <p>Make sure to send your resumes in English, non English written documents will be ignored.</p>
We offer	Interesting and stimulating environment which encouraged growth and professional excellence in an informal environment. Attractive compensation package.
