Serge Goldman

ULB

Contact:

sgoldman@ac.ulb.be

Serge Goldman is MD with successive certifications in neurology and in nuclear medicine and a thesis leading to the "agrégation de l'enseignement supérieur" in Medical Science. He is head of the Department of Nuclear Medicine and the PET/Biomedical Cyclotron Unit at ULB - Erasme Hospital since 2002. He is Director of the Laboratoire de Cartographie du Cerveau at ULB - Erasme Hospital.

He has published 178 full articles during the last 25 years. Most of this scientific production relates to PET imaging, including for animal models. His main field of research is imaging of brain tumors with a particular stress put on the integration of molecular imaging in therapy targeting. Other fields of interest are imaging for cell tracking and neurological applications of PET, in particular in the domains of neurodegeneration, epilepsy and development.

He was President of the Belgian Society of Nuclear Medicine from 2007 to 2010.

Thierry Leclipteux

Coris BioConcept

Contact:

th.leclipteux@corisbio.com

Thierry Leclipteux got his PhD at the University of Namur in 1985 and, after a civil service, started his professional activities in IRE-Medgenix where he was responsible for an in vitro monoclonal antibody production project. He then worked for 5 years as Scientific Director at Beldico SA before to return at the University as Senior Research Assistant (Faculty of Veterinary Medicine – Ulg). In 1996, with three partners, he founded Coris BioConcept where he was CSO before to become CEO of the company in 2007. Along of these professional activities, he hold some teaching positions in different high schools. He is also member of the BioWin board, President of IDEALYS and leader of the new Walloon in vitro diagnostic cluster Wal-Dx.

Open innovation: Make it work and deliver

Emmanuel Chantelot

EBE

Emmanuel Chantelot is the Executive Director of European Biopharmaceutical Enterprises (EBE), a trade association of 63 biopharmaceutical companies of all sizes operating in Europe. As the voice of biopharmaceuticals in Europe, EBE interacts with the European institutions and other stakeholders on healthcare policies and issues relevant to biotechnology-derived medicines. EBE also operates as the biotechnology arm of EFPIA, the European pharmaceutical industry federation.

Bruno van Pottelsberghe

ULB

Bruno van Pottelsberghe is Full-Time Professor at the Université Libre de Bruxelles (ULB), Solvay Brussels School of Economics and Management (SBS-EM) and Senior Research Fellow at Bruegel, a Brussels-based Think-Tank. As holder of the Solvay S.A. Chair of Innovation he teaches courses on the economics and management of innovation and intellectual property. He has so far supervised more than 10 Ph.D. research fellows, of which six have successfully completed their dissertation. For his research activities, he is also affiliated to ECARES (ULB) and CEPR London. His research interests focus on the effectiveness of science and technology policies, patent policies, regulations and innovation. Bruno van Pottelsberghe was Chief Economist of the European Patent Office (EPO) from 2005 to 2007, is Advisor to the President and Rector of the ULB for technology transfer issues, and is Vice Dean of the SBS-EM.
