

programme

- 9:00** Registration
9:30 Welcome – France Fannes, Managing Director of BioWin

Plenary Session:

- 9:35** *“Open innovation, the new model to innovate in health”*
Prof. Jean-Luc Balligand (UCLouvain), VP of BioWin, Chairman
“Innovation in Biotech Reinvented” - Ingrid Maes (PwC)
“How pharma could learn from failure analysis - implications for translational medicine”
Dr Magnus Sjogren (UCB)
“Innovative Biotechnology is OPEN for Business” - Prof. Donny Strosberg (Scripps Florida)
- 10:40** Coffee break / Poster Session
- 11:00** *“Creating value from science through technology transfer”*
Prof. Koen Debackere (K.U. Leuven Research & Development)
“Accelerating transfer from discovery to the diagnostic market” - Franck Molina (SysDiag)
Debate with the keynote speakers animated by Annick Capelle, (RTBF Journalist)
- 12:30** *“Open innovation in Wallonia: BioWin, where Science meets Business”* - Jean-Pol Detiffe (DNAVision),
Board of BioWin, Chairman
“Methylome against cancers – from innovation to a key business case” - Sandra Huygen (MDxHealth)
“Innovation at IBA: Win-TPS project” - Damien Bertrand (IBA)
- 13:00** Lunch / Posters Session
13:30 Students’ registration

3 workshops:

- 14:30** **Open innovation: Make it work and deliver**
Moderators: Emmanuel Chantelot (EBE) and Bruno van Pottelsberghe (ULB)
Coordinator: Marianne Ghoot (BioWin)
- Radiodiagnostic/Radiopharma**
Moderators: Jean-Luc Morelle (Trasis) and Prof. Serge Goldman (ULB)
Coordinator: Sylvie Ponchaut (BioWin)
- Medical diagnostics**
Moderators: Thierry Leclipteux (Coris BioConcept) and Franck Molina (SysDiag)
Coordinator: Eddie Ezzarani (BioWin)

Closing session:

- 16:30** Awards posters session
Reports from the different workshops
“First achievements of the new BioWin strategy 2010 - 2014” - France Fannes (BioWin)
Jean-Marc-Nollet (Walloon Region)
Jean-Claude Marcourt (Walloon Region)
“How to consolidate the excellence of Wallonia in health biotechnology and medical technologies”
Jean Stéphenne (GSK Biologicals), President of BioWin
- 17:30** Cocktail
18:30 End

3 workshops

Open innovation: Make it work and deliver

1. CASE STUDIES

- Biopharmaceutical sector: Wim Tiest, Director, Portfolio Strategy and Business Operations, Immunotherapeutics, GSK Biologicals - **“Open Innovation at GSKBIO – A Partnering Continuum from Idea to Patient”**
- Other sector: J.W. (Hans) Hofstraat, Vice President Philips Research, Healthcare Strategic Partnership, Philips - **“Open Innovation in Translational Healthcare”**

2. KEY TOPICS

- Process Management: Magali Poinot, Legal Manager / Calls & Projects Coordination, Innovative Medicines Initiative, IMI - **“Open Innovation from Promise to Practice: IMI Case Study”**
- Competencies and Knowledge Management: Michael Barnes, PhD, Consultant, Pharmivation - **“Competencies and Knowledge Management: Lessons from the Innovative Medicines Initiative”**
- IP Management: Gilles M Capart, PhD, Managing Director, AuXin SA - **“Remarks on Patents and Open Innovation”**

3. PANEL DISCUSSION

Moderators:
Emmanuel Chantelot (EBE) and
Bruno van Pottelsberghe (ULB)

Coordinator:
Marianne Ghyoot (BioWin)

Radiodiagnostic/Radiopharma

Jean-Luc Morelle (CEO, Trasis).

“A short retrospective on the involvement of Belgian companies in nuclear medicine”.

François-Xavier Hanin (Department of Nuclear Medicine, Saint-Luc Hospital).

“Towards new tracers in nuclear medicine: the clinical perspective”.

Valery Host (Research & Development Manager, IRE-ELIT).

“Contribution to health improvement through the production of radiochemical and radiopharmaceutical radionuclides for the nuclear medicine”.

Jean-Luc Morelle (CEO, Trasis).

“Research priorities defined by a focus on anticipated user’s practices for future products”.

Robert Muller (Scientific director, Center for Microscopy and Molecular Imaging)

“Hybrid modalities for Molecular Imaging”.

Moderators:

Jean-Luc Morelle (Trasis) and
Prof. Serge Goldman (ULB)

Coordinator:

Sylvie Ponchaut (BioWin)

Medical diagnostics

1. INNOVATIVE TECHNOLOGIES

- Laurence Sifre (R&D manager, HISTALIM)

“Validation of an immuno-labelling implied in an in vitro diagnosis device”

- Prof. Frank Bier (Deputy Director Fraunhofer Institute for Biomedical Engineering IBMT) - **“Autonomous Biosensors - Emerging Technologies for in-vitro Diagnostics”**

- Alfred Collard (Director, Biotechnology Department CERgroupe) - **“CER: Present and future development”**

- Geoffrey van Holsbeek (Industrial Engineer Cecotepe / Haute Ecole de la Province de Liège) - **“In vitro hybridoma culture: new methods for productivity and stability improvement”**

2. COMPANIES' FLASH PRESENTATIONS

- Biorad - To be confirmed

- i2A - Christian Curel, General Manager

- Genepep - K. Pujet, CEO

3. EUROPEAN MEDICAL DIAGNOSTICS CLUSTER PROJECT

- Frank Molina, Director Sysdiag / Thierry Leclipteux, CEO Coris Bio-Concept - **“Why a European Medical Diagnostics Cluster? Mission, Goals and Key Future Activities”**

Moderators:

Thierry Leclipteux
(Coris BioConcept) and
Franck Molina (SysDiag)

Coordinator:

Eddie Ezzarani (BioWin)
