

NUCLEAR MEDICINE IN BELGIUM EVENT

October 14TH–15TH, 2026
Wallonia, Belgium

A Strategic Gateway to Europe's
Most Integrated Nuclear Medicine
Ecosystem

Why Attend This International Event?

Belgium offers one of the most integrated and advanced nuclear medicine hubs in Europe, with a complete value chain from R&D to patient delivery.

Your presence at Nuclear Medicine in Belgium represents a unique **opportunity to strategically connect with key stakeholders and unlock high-value international collaborations.**

Ideally scheduled just before the European Association of Nuclear Medicine (EANM) Global Annual Congress, this initiative offers an **exceptional, immersive, and high-value experience as part of your visit in Europe:**

- A two-day immersive program combining industrial site visits and strategic discussions
- Direct access to senior decision-makers across the entire value chain
- KOL testimonials and presentations on industry trends
- Targeted B2B meetings and exclusive networking opportunities
- Interactive sessions designed to move from discussion to action

Driving health
innovation

Day 1

📅 **OCTOBER 14TH, 2026**

Exclusive Industrial & Production Site Visits (Wallonia)

A rare opportunity to access critical infrastructure shaping the future of advanced radiopharmaceuticals:

- **Full Life Technologies Europe (Gembloux)*** – A brand-new state-of-the-art facility dedicated to the production and processing of actinium-225 – a cornerstone for the next generation of targeted alpha therapies.
- **IRE – Institute for Radioelements (Fleurus)*** – A global leader in medical isotope production. A unique opportunity to discover their newly acquired IBA cyclotron strengthening Germanium-68 production, along with their new CDMO capabilities.

*Subject to confirmation

We look forward to welcoming you

to Nuclear Medicine in Belgium on October 14–15 and to engaging with you during this unique event.

Day 2

📅 **OCTOBER 15TH, 2026**
(Ecolys, Namur)

High-Level Seminar & Strategic Discussions

Access one of the world's most integrated nuclear medicine ecosystems in a single day – and identify concrete entry points for collaboration.

This high-level seminar brings together industry leaders, clinicians, researchers, regulators, clusters, and public authorities to discuss the latest trends and strategic developments in the field of nuclear medicine.

Strategic focus areas:

- **Innovation & Scale-Up** – Through business case presentations and roundtables with C-level leaders, participants will explore how innovations move from R&D to clinical translation and industrial deployment in nuclear medicine.
- **Talent & Awareness** – Experts will discuss practical strategies to close the talent gap and strengthen the global visibility and attractiveness of the nuclear medicine field.
- **Regulation & Market Access** – Industry leaders and regulators will exchange perspectives to streamline regulatory pathways and accelerate international market access for innovative solutions.
- **Ecosystem Power** – Discover how coordinated clusters and partnerships will transform regional excellence into European leadership with global impact.
